RESOURCE CENTER

If your practice is seeking alternative ways to bring vision care solutions that can make a difference to your dry eye sufferers, then OASIS would like to introduce to your practice the MY OASIS Platform.

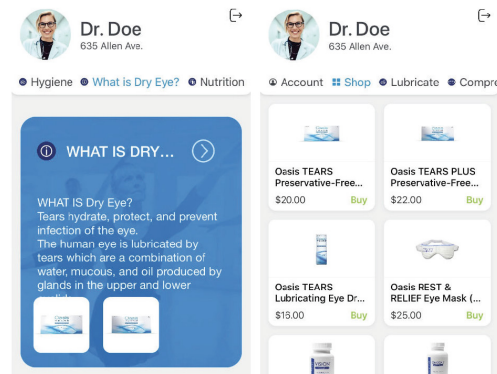

My OASIS platform was developed for practices to support the expansion of their services through continuity of care. This automated platform provides a customized storefront, the ability to bridge and engage with your patient community, all while bringing the convenience of at-home delivery on recurring or non-recurring basis. Let the platform tools be your website marketing. Let your practice's key person reach new members and build your vision care / dry eye community, prevent drop off, and bring in supplemental income. MY OASIS cyber platform diversifies your outreach, which broadens your growth potential. It supports communication, connection to nurture relationships, and the ability gain new actionable insights.

FOR THE DOCTOR, MY OASIS IS:

- A convenient approach to customizing and delivering a daily eye care regimen with OASIS solutions.
- Access to eye care products that make a difference through a custom OASIS® store-front. Invite your members to easily place orders remotely with your unique code (recurring order option available).
- The ability to invite members to learn through the educational information offered covering lubricating eye drops, eye lid hygiene and maintenance, how to use them, and more.
- Access to tools that display your practice's growth, patient retention, and at-home care compliance.

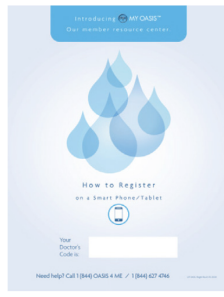

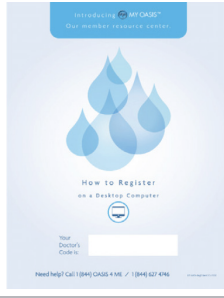

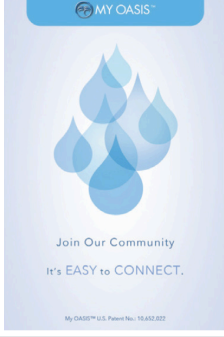

FOR THE CONSUMER/DRY EYE SUFFERER, MY OASIS IS:

- Well being because of access to your at-home care.
- Consumers with dry eye are seeking a vision care provider that is committed to their eye care. MY OASIS puts your practice in the palm of your patient's hand.
- Having a resource center where they can learn about dry eye and educate themselves on their treatment options.
- Convenience of ordering their doctor recommended solutions from home.
- The ease of setting their at-home care on a scheduled shipment.
- The ability to stay up to date on new products and services.

MY OASIS MARKETING MATERIALS

OASIS provides a broad mix of informational materials in the form of brochures, posters, and videos for use in your practice and to distribute to your consumers/patients as new members join your community.

"My ophthalmologist suggested that I try Oasis Tears Eye Drops a few weeks ago. I have been having a lot of trouble with dry eyes & consequent diminished vision since I had Lasik eye surgery about 3 years ago. I have tried several different brands of eye drops without getting relief that I need. The Oasis drops were different right away. It was amazing to only need to use eye drops 4 times a day instead of 6-10 times a day. They have relieved the dryness in my eyes much better than other drops and my vision has improved in the past couple of weeks. I also am very pleased that these drops are small so I don't have tears running down my cheeks and a recovery time before I can see. These drops are so easy, work better and are much more convenient than others. I have also recommended these drops to family members who have trouble with dry eyes. So glad to be able to use this better product. Wish they were available in stores also. Thank you."

Glenna C., California

"I love the tears! I really think your tear is one of the best, if not the best on the market! I am following your suggestion of placing a drop on the patient's eye while in the exam chair. They can tell a real difference. They really do last long on the eye."

Michael H., California

"...I especially love the eye mask! I use it every day. It also helps before or after my Restasis drops, because the drops burn. I highly recommend the mask."

Norma H., California

FORM FIT[®]

HYDROGEL CANALICULAR PLUGS

LONG TERM OCCLUSION

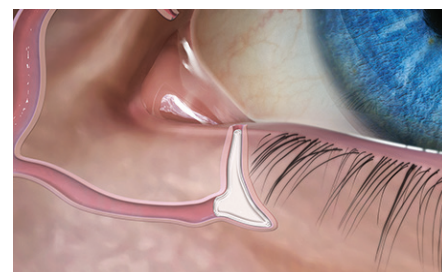

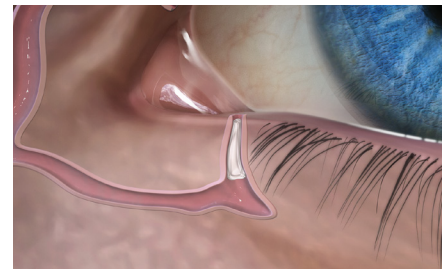

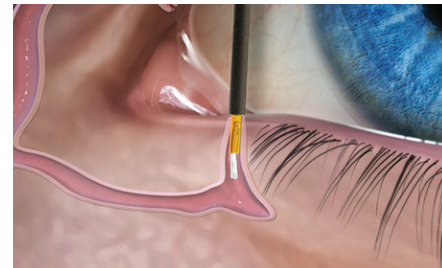

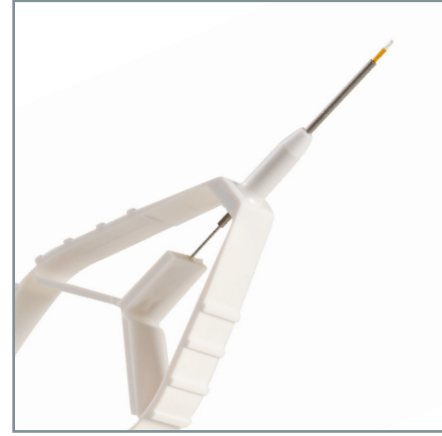

FORM FIT is truly a one size plug solution. Once inserted into the canaliculus, FORM FIT hydrates in approximately 10 minutes. As it hydrates, FORM FIT increases in size until it completely fills the vertical canalicular cavity.

HOW IT WORKS

FORM FIT is made of a safe and biocompatible hydrogel material that expands into a soft, pliable, gelatinous material when it contacts tear film. FORM FIT securely conforms to the vertical canaliculus so there is no need for a cap on the end of the plug. This greatly increases patient comfort and decreases foreign body sensation.

DETAILS

- Hydrates in approximately 10 minutes
- Easily removed via irrigation of the tear duct
- Biocompatible, no foreign body sensation
- Sterile
- Conveniently pre-loaded in inserter
- 0.3mm, one size fits all

"I have Sjögren's and dry eyes are one of my symptoms. I literally had dry patches on my eyes. I needed to have a product I can depend on to keep them hydrated and stop that gritty itchy feeling. I know it may sound cliché, but it's true! My eyes are the desert and you are my Oasis! I've tried so many products, which means I've spent a lot of money. Not anymore. I've found a product that not only feels good when I put it in, but continues to feel good. I was so frustrated, but not anymore. Thank you OASIS!"

Charlene D., New Jersey

"I love your product. It is the only thing that seems to help my eyes since my surgery 3 months ago. After my epi-lasik I had numerous erosions and was in total discomfort no matter what the eye doctor gave me for eye relief. I asked if he didn't have any other new products that I could try that might give me more relief for the dryness in my eyes. He said he had a new product... Oasis TEARS PLUS. From the first day I used it my eyes have felt so much better. I am at the point one month later that I don't even feel the dryness everyday when I wake up. Thanks for your product."
