Level Up Quality. Redefine Sharp.
Reusable & Disposable

FEATHER® MICRO FEATHER Ophthalmic Scalpel with Aluminum Handle

- Textured Grip For Control
- Diamond-like Sharpness
- Lightweight, Aluminum Handle

Learn how OASIS® can collaborate with your surgical team for True Surgical Solutions.

“The new Feather keratome produces a smooth, precise entry to the anterior chamber with no drag or concern of catching Descemet’s membrane. The reusable blades are cost effective in our surgery center and perform well for multiple procedures, which greatly reduces our cost per case.”
- Adelaide Priester, D.O., Better Vision Ahead Advanced Eye Care

Feather® redefines sharp and combines it with elegantly designed precision in their broad line of scalpels. Feather® reusable scalpels are designed for repeated use, can be resterilized at your surgical facility in compliance with CMS regulations, and are easily disposed of after multiple uses. Feather® also offers both single use disposable and safety scalpels.
